Cook Forest

The 8500-acre Cook Forest State Park and the 3,136 acre Clarion River Lands are a vacation wonderland. Park Naturalists conduct free environmental interpretive programs year round at Cook Forest. The splendor of the Forest Cathedral, a National Natural Landmark is unsurpassed. The 200 to 350 year old trees in this area measure as much as five feet in diameter and tower almost 200 feet in the air. The Forest Cathedral is easily reached via Longfellow Trail behind the Log Cabin Environmental Learning Classroom.

Visitors can enjoy this ancient forest on over 47 miles of hiking trails and 4.3 miles of multi-use trails within Cook Forest State Park. An additional 24 miles of multi-use trails and 8 miles of hiking trails are located within the Clarion River Lands. Each of the marked trails offers a unique outdoor encounter.

The Clarion River, a nationally designated Wild and Scenic Waterway, winds through Cook Forest State Park. Popular river activities include canoeing, tubing, kayaking, swimming and fishing. Northern pike, smallmouth bass, walleye, catfish, trout and all species of panfish are abundant in the river. A fishing area designated especially for children and handicapped visitors is located near the Cook Forest State Park office.

Seneca Point Overlook near the #9 Firetower offers a breathtaking view of the Clarion River Valley. The adventuresome can climb 70 feet to the top of the old #9 Firetower for an impressive view of the area.

Clear Creek

Clear Creek State Park covers 1,901 acres in the scenic Clear Creek Valley. Located just 11 miles from Cook Forest State Park, Clear Creek offers a unique outdoor experience. Hikers can explore the park on more than 25 miles of hiking trails. When in bloom, the beauty of the rhododendron and mountain laurel are unsurpassed. Many forms of wildlife inhabit the park including deer, black bear, turkey and grouse.
