Special Events

Cameron County is a wild and wonderful place to view the stars. The night sky is visible from any where in the county since lighting in the population centers have followed night sky viewing guidelines. But some of the best locations include Top of the World where the Milky Way and shooting stars can be captured. Occasionally northern lights create a spectacular show.

Count the Stars

Cameron County is a wild and wonderful place to view the stars. The night sky is visible from any where in the county since lighting in the population centers have followed night sky viewing guidelines. But some of the best locations include Top of the World where the Milky Way and shooting stars can be captured. Occasionally northern lights create a spectacular show.

Welcome

The Cameron County Chamber of Commerce and businesses invite you to explore Wild and Wonderful Cameron County. Wake up to fresh air and incredible scenery. You have found unspoiled wilder-ness and communities filled with residents proud to show you their favorite reason why they call Cameron County home. Our skies fill with stars at night and the county has some of the most breath-taking vistas in the region. Enjoy a bite to eat, hike, bike, or ride out trails, fish in Class A Trout Streams, hunt in the woods, shop at our stores, and take home a piece of the PA Wilds from the Cameron County Chamber of Commerce Artisan Center.

Explore Cameron County in Four Seasons

Take a Ride

From the seat of a bicycle or snowmobile you can explore the West Creek Recreational Trail. This 18-mile trail once connected Cameron and Elk Counties by rail. Bring a camera as the trail winds through woods and streams known to be home to elk, deer, and eagles.

Grab a Paddle and Pole

Pick up a waterways map of the Driftwood Branch of the Sinnemahoning Creek and spend the day paddling, tubing, or fishing on the headwaters of the West Branch of the Susquehanna River. Stevenson Dam in Sinnemahoning provides still water for kayaking and canoeing. In the winter trade your pole for ice fishing gear.

Swing at the Golf Ball

Open spring through fall the Emporium Country Club has been called one of the most picturesque courses in the state. After you play enjoy dinner in the restaurant or take a seat outside on the porch and continue to enjoy the view.

Rev up Your Engine

Wykoff Run Road is a 10 mile winding road which is a favorite of motorcyclists and jeep owners. In the spring the waterfalls dot the roadside.

History Buffs

You can enjoy history 12 months a year in Cameron County. Historical markers tell the local history and from May to September stop at the Little Museum in Sterling Run.

Lace up Your Boots

Explore the trails any time of year. Fred Woods Trail highlights boulders and vistas, while Sand Springs is groomed for Cross Country Skiing.

Bring Your Competitive Spirit

Each year the Sinemahone Triple Crown offers competitors the opportunity to explore water and land trails during the spring and fall seasons. April is a canoe and kayak race, September a gravel bike race and October a trail run.

Sing with the Birds

Starting in early spring raptors migrate through the area and can be found catching the updraft winds at Top of the World. Songbirds arrive in April and May. They can be spotted along the West Creek Rails Trails, and Sterling Run area. Looking to see a Bald Eagle? Head to George B. Stevenson Dam in Sinnemahoning or pack a lunch and head to a stream. From Eagles to Hummingbirds, you can spot them in Cameron County.

Elk Watching

The number of elk calling Cameron County home continues to grow. They can be spotted in Driftwood and Sinnemahoning all year long. They have been moving into Truman and Moore Hill areas also. The best time to see elk is daybreak and sunset.

Stories define a community and world-renowned artist Michael Pilato has captured those stories in murals that can be found painted on the sides of buildings in downtown Emporium. The military mural found at the corner of Broad and Fourth Street was painted by school children and veterans under the direction of Pilato. Other murals depict long time public servants and role models. The easy walk downtown provides a wonderful way to view the art-work.

Memorial Springs located just outside of Emporium is a popular spot to pull off Route 120 and enjoy the cool spring. The area is a favorite to remember those killed in the Pepper Hill Fire. The wildfire claimed the lives of 8 teenagers who were living at a CCC Camp. Information learned from that blaze changed firefighting techniques.

Inside the Cameron County Chamber of Commerce & Artisan Center you can learn the stories behind the makers of items for sale. More than 60 artists sell works you can proudly take home and show off as Made in the PA Wilds. The chamber office is filled with informational brochures and a gathering place for local residents.

Downtown Emporium is where you will find local shop owners. They are excited to welcome you and share their story. You will find car parts to clothing and everything in between. If you're antique hunting, be sure to stop at Hauss's One Stop and talk to Randy. Looking to rest your feet and enjoy a bite to eat? There are several options and each restaurant is locally owned! One thing you will not find in Cameron County is fast food.

Manufacturing has always been a significant aspect of our county. Cameron County is the least populated county in the state of Pennsylvania but continues to leave its mark on the state and the rest of the country. Dynamite created in Emporium blasted room for the Panama Canal, flagstone mined from the mountains can be found today at the Tomb of the Unknown Soldier, light bulbs and radio tubes found in homes across the nation were produced at Sylvania, which was founded in the community. Today, tools are manufactured at Emporium Forging, powder metal has created opportunities for numerous entrepreneur-owned machine shops and Emporium Hardwoods is producing the most board feet of any facility east of the Mississippi.
